OPENING OF LANDS.

Thousands of Acres Restored to the Public Domain.

SOON TO BE OPEN FOR SETTLERS

Secretary Noble Issues an Order of Interest to These Contemplating Going Westward—A Withdrawal from the Chicago, St. Paul, Minneapolis and Omaha Railroad.

WASHINGTON, Oct. 24.—Secretary Noble has issued the following order:

It is hereby ordered that all lands in the Ashland (Wis.) land district under withdrawal heretofore made, and held for indemnity purposes under grants for the benefit of the Chicago, St. Paul, Minneapolis, and Omaha Railway company, be and are hereby restored to the public domain, and opened to settlement and entry under the general land laws, as construed by this department.

Provided, that this order shall not take effect until public notice of the contents thereof shall have been given in the vicinity of said lands for six days under your direction. In connection with such notice you are instructed to announce that no person will be recognized as requiring any claim, or right to any of said lands, who seeks to initiate or prepare the same by means of force, threats, or intimidation.

Commissioner Carter, of the general land office, sent the following telegram to the register and receiver of the land office at Ashland, Wis.:

I compliance with an order of the honorable secretary of the interior of this date, you are directed to post in your office and publish in a weekly and also in a daily newspaper of general circulation in the vicinity of the lands, notice that on Monday, Nov. 2, 1891, all lands in your district under withdrawal heretofore made and held for indemnity purposes for the benefit of the Chicago, St. Paul, Minneapolis and Omaha Railway company, will be restored to settlement and entry, said lands being the same referred to in the letter of my predecessor, dated Jan. 8, 1891. In the notice you will announce that no person will be recognized as acquiring any claim or right to any said land who seeks to perfect the same by means of force, threats or intimidation. You will, for general information, republish as a part of such notice the list of said lands heretofore published. Conform to instructions heretofore given in, so far as such instructions are concerned, and harmonious with these directions. The first publication in both the weekly and daily papers should be made not later than Saturday, the 24th inst.

The area of land thrown open to settlement by the above order is 94,540 acres, subject to deductions by purchasers who claim under the act of March 3, 1837.

INDIANA ALLIANCE.

The Third Party Movement Adopted by a Decided Majority.

INDIANAPOLIS, Oct. 24.—The State Farmers' Alliance talked yesterday about the third party movement, the sentiment being in its favor, but with a decided opposition to counteract. Strict secrecy is maintained in regard to the proceedings, but it was developed during the discussion that a majority to attend the supreme council here next month will be for third party. The Alliance adopted resolutions endorsing the St. Louis and Omaha platforms and giving prominence to the demand for the abolition of national banks. The state legislature was denounced for ignoring demands of confederated organized labor.

Resolutions favoring prohibition and woman's suffrage were also adopted, but without warm discussion, particularly regarding the latter proposition. The Alliance will adjourn today.

Not Able to Pay Its Debts.

PITTSBURG, Oct. 24.—In the United States circuit court yesterday Joseph Chapman, of Ohio, filed a bill in equity against the Hainesworth Steel company, asking for a receiver. The bill sets forth that Chapman is a creditor of the company to the extent of \$3,000, and is accompanied by an affidavit that the plaintiff does not believe the company is able to pay its debts, asking for the appointment of a receiver and for a preliminary injunction made returnable tomorrow at 10 o'clock.

Took His Friend for a Deer.

WEST SUPERIOR, Wis., Oct. 24.—A most unfortunate accident happened a half mile distant from Dedham, a small station on the Eastern road last evening. While Adam Miller and J. L. Showers were hunting in the above vicinity the former observed a movement in the underbrush and thinking it was a deer, fired and instantly killed D. Stitz, Miller surrendered himself to the police.

Reward for Youthful Thieves.

ITHACA, N. Y., Oct. 24.—Sheriff Tibbets, of this county, has offered a reward for the capture of Edward Fogarty, aged fourteen, and F. R. Bryant, aged thirteen. Both boys are charged with having taken \$1,000 from the trunk of Fogarty's grandmother. When last seen the lads were in Auburn, where they purchased tickets for Buffalo.

Exports and Imports.

WASHINGTON, Oct. 24.—Merchandise exports from the United States during September past were valued at \$82,587,897, against \$68,693,137 during September, 1890. Imports during the past month were valued at \$61,508,980, against \$75,939,742 during September, 1890.

Snow in the Adirondacks.

PLATTBURG, N. Y., Oct. 24.—This section of the Adirondacks was visited by a heavy snowstorm Friday morning. At Saranac lake three inches of snow has fallen and the storm continues.

BASE BALL MAGNATES.

What Was Done by the American Association at Chicago.

CHICAGO, Oct. 24.—The board of directors of the American Base Ball Association went into executive session shortly after 10 o'clock yesterday with all the clubs represented. Just how many clubs and what cities shall be represented in the Association during the coming season was a special matter of consideration, and it was very soon developed that a strong feeling existed in favor of an eighth club circuit. This was vigorously opposed by George Schmeltz, of Columbus, and finally, after an animated discussion, the matter was referred to a sub-committee to report this afternoon.

At the instance of the Chicago club the board also decided to abolish the percentage system, and adopt instead \$100 guaranty to visiting clubs.

The sub-committee which was appointed to settle the vexed circuit question, after a lengthy conference, decided to visit the various cities applying for franchises in the Association, look over the ground and make a report at the spring meeting, recommending a circuit. The committee's report in the matter will be final.

At the afternoon session the Association reconsidered its action in deciding to give the visiting club a \$100 guaranty and instead each club agreed that the home club should take the entire gate receipts. The annual election of officers then took place. Von Der Ahe nominated President Phelps for president and treasurer and he was unanimously re-elected. Julian B. Hart, of Boston, was elected vice president. Louisville, Boston and Baltimore were appointed a committee on finance, and to Chicago, St. Louis and Philadelphia was entrusted the building of a schedule. Boston, Washington, Milwaukee and Columbus were chosen a board of directors. Edwin Sutherland, of Washington, was made the official attorney and assistant to the president.

A resolution offered by Barnie, of Philadelphia, was adopted blacklisting the following players for jumping Association contracts: Dolan, Reilly, Radbourne, King, Ehret, Raymond, Ely, Knauts, Burt and Inks.

Barney, Schmeltz and Chapman were appointed a committee to examine the rules and report at the spring meeting. Manager Schmeltz offered the following resolution, which was carried unanimously: "And the Association recommends to the said committee on rules to so amend the rules that whenever a game be begun and not completed, as provided in the rules, the same must be taken up where left off, and finished on the next scheduled date between said clubs, in such city before the regular scheduled game is played."

It was announced that Umpire Gaffney had signed a contract to officiate in the Association next season. President Williams, of the Chicago, said he had heard a great deal of talk to the effect that the American Association players were not properly protected. He offered a resolution to the effect that each club execute to the president of this Association a bond in the sum of not less than \$75,000, that the Association and its players may be fully guaranteed a performance of all contracts and obligations on the part of each club. The resolution was adopted without a dissenting voice, and the meeting adjourned sine die.

A Peculiar Disease.

ENGLISH, Ind., Oct. 24.—A peculiar disease has developed in the McGuigan family of this place. Each member of the family with the right eye can see any distance possible with an eyeglass, while with the left eye they cannot recognize objects across the street. No spectacles so far tested can improve the defect of the left eye and make it conform to the right. The eyeballs are plump and full; the iris is of the same size and color in each, and the retina by ophthalmic examination shows no defect or ravages of diseased tissue, yet the fibers of the left eye seem coarser than in ordinary eyes.

Child Stolen.

RODOUT, N. Y., Oct. 24.—The sixteen-months-old child of Mrs. Mattie Barnes was stolen from its cradle at the cottage of Mrs. Barnes' father, the Rev. J. C. Fenton, on Prospect avenue, at about 6 o'clock last evening. Mrs. Barnes is separated from her husband, Dr. A. C. Barnes, of New York city, and is taking steps to secure a divorce on the grounds that the doctor has six other wives living, and she suspects the doctor has stolen the child from her.

Furniture Store Damaged by Fire.

MOUNT VERNON, N. Y., Oct. 24.—Fire early yesterday morning completely gutted the furniture store of Friel & Hand and the three floors above it occupied as private dwellings and caused a loss of about \$60,000. The insurance is about \$40,000. The fire caused great excitement in the place as there was a great scarcity of water, and much anxiety was felt lest the firemen should be unable to control the flames. No one is reported injured.

Skeleton Washed Ashore.

ASBURY PARK, N. J., Oct. 24.—Portions of a skeleton of a man, consisting of both hip bones and one leg, were washed upon the shore yesterday at the foot of Heck avenue. They are supposed to be parts of a body of some one who had been buried at sea years ago.

The Result of a Runaway.

BIRMINGHAM, Ala., Oct. 24.—At Besmer Samuel Mullen, postmaster, and one of the leading Republican politicians in Alabama, jumped from his carriage during a runaway yesterday, and striking his head on a rock, fractured his skull. He is not expected to live.

Mining Camp Destroyed by Fire.

OURAY, Colo., Oct. 24.—The mining camp of Animas Forks was destroyed by fire yesterday. The loss will be over \$15,000, with no insurance.

SWEEPING FLOODS.

Intold Damage Done Throughout England.

NEVER EQUALED BEFORE.

Not Plains Under Water and Little Rivulets Swollen Into Mighty Rivers—No Lives Lost, but Much Suffering Is Sure to Follow—Other Foreign News.

LONDON, Oct. 24.—Politics, both foreign and domestic, give way in the public interest to the extensive floods, never equaled in England within the present generation, and far more widespread than the Moray floods of sixty years ago, which, however, destroyed many lives. The floods have come so gradually that nearly every one has had a chance to escape, although vast plains are under water and rivulets have swollen to rivers. The chief anxiety felt is as to whether the waters will altogether retire from some of the regions invaded, especially the low lands near the sea, large sections of which have been rescued for cultivation by the labor of centuries.

Should the floods, which are still rising in many places, not soon subside, much suffering will be caused.

In Buckinghamshire, the country in the vicinity of Newport-Parnellia on the Ouse, is submerged, and the inhabitants have been compelled to seek refuge on the upper floors of their homes. The high road running into Newport is several feet under water. A railroad cutting near Christ church collapsed yesterday and completely blocked up the railroad lines. The surrounding neighborhood is inundated so that the repairing of the damage is impossible till the subsidence of the floods.

The Thames is still rising and is already five feet above its normal high water mark. A portion of the royal gardens and drives at Windsor were flooded.

The flood demolished a pile dam which had been constructed across a fifty foot gap in the embankment of the river, Parrett, in Somerset. An enormous volume of water poured through the breach thus made, causing widespread damage to the adjacent country and forcing the country people to use boats in passing from village to village.

Natural Gas Giving Out.

CLEVELAND, Oct. 24.—There is considerable trouble in several of the natural gas towns of Ohio over the fuel question. Notice was served yesterday on the factories of Lima by the natural gas company that no gas would be furnished after Nov. 1. The manufacturers at Tiffin were notified that when the present contracts expired they would have to put in meters and pay for gas at the rate of six cents per 1,000. The potteries at East Liverpool can no longer depend on gas and they are resuming the use of coal. Only private consumers are being furnished with gas in Dayton, and unless the supply is increased by the drilling of new wells the price will be increased 25 per cent. The supply at the wells at the points named is rapidly decreasing. Costly litigation is likely to ensue at Dayton and Tiffin over franchises and grants.

Negro Blood in the Royal Court.

BERLIN, Oct. 23.—The pardon and restoration of the Grand Duke Michael, cousin to the czar, and the consequent recognition of his marriage to the Countess Merenberg, admits to the exclusive circle of the Romanoff court a lady who has negro blood in her veins, and who is the daughter of a noted divorcee, but who is also considered one of the most beautiful women in Europe. The grand duchess is a descendant of the Russian poet Pushkin, who was himself descended from a full-blooded negro, a favorite of Peter the Great. The grand duke gets back his military demands, his civil allowance and all his titles and dignities. The czar is said to have meditated this step ever since the death of the grand duke's mother, which was directly caused by the czar's harshness towards her son.

Attempt to Wreck a Train.

LONDON, Oct. 24.—The eastbourne express train was nearly wrecked yesterday near Croydon by running into a mass of fish plates and tie chairs which had been maliciously placed upon the track. The engineer saw the obstacle, and succeeded in somewhat checking the speed of the train, but the engine plunged through the mass of iron and was considerably damaged. The remainder of the train was undamaged. The railroad company has asked the Scotland Yard authorities to aid in detecting the authors of this crime and of the recent similar outrage at Reading.

Female Brigand on Trial.

VIENNA, Oct. 24.—A female brigand named Mila, is being tried for some of her crimes at Posarevatz, Serbia. She has been for a number of years a terror to the people of that region, and her crimes and cruelties far exceed those of the ordinary brigand in Turkey or Serbia. Mila is accused of fourteen murders, and a peculiarly unfeminine feature of her deeds of blood was that she horribly mutilated her victims. In audacity and cruelty she had few equals among outlaws. She is not good looking and has a nose like a hawk.

The Crisis in China.

BERLIN, Oct. 24.—There is no truth in the statement that Germany will take the lead in putting into operation a common plan of action on the part of the European powers against China. A proposition is, however, mooted that the German minister at Peking, as Doyen of the diplomatic corps, shall take supreme control of the foreign interests during the present crisis.

KILLED BY A TRAIN.

A Korean Prince Meets an Untimely Death in Maryland.

WASHINGTON, Oct. 23.—Sn Penn, a Korean prince, was killed last night by a train at College Station, Md., near this city. He came to this country with the commission sent out by Corea years ago to investigate the progress of civilization in foreign countries, and decided to make his home here. His persistent refusal to return caused the confiscation of large estates owned by him.

Becoming interested in agricultural advancement he studied at the Maryland agricultural college, and after being graduated last June obtained a position in the agricultural department, where he devoted himself to translating and compiling data concerning agriculture in China, Japan and Corea. Sn Penn was forty years of age. Recently he endeavored to obtain permission to return to his native country but the request was refused.

Farmer Mysteriously Missing.

QUEENSVILLE, Ind., Oct. 24.—On Monday, the 12th inst., Andrew Robbins, a respectable citizen of this place, started away on foot, ostensibly to visit a farm which he owned in Jennings county. He should have returned on the following day, but nothing has since been heard of him, save that he was seen at Vernon about noon of the day he left. It is rumored that parties in the vicinity of the farm he intended to visit, themselves not above suspicion, supposed he was carrying a sum of money, but he had none with him. His wife is nearly distracted, and if he is not found soon, her condition will become serious. Fears of foul play are entertained.

Defaulter Arrested.

NEW ORLEANS, Oct. 24.—Eugene F. Garcia, cashier of the Louisiana National bank, who was discovered to be a defaulter to the amount of \$190,000, was arrested at his residence last night. Garcia was taken to the residence of United States Commissioner Wright, who admitted him to bail in the sum of \$25,000 and set Monday as the day for the preliminary hearing. Mr. Garcia still adheres to his first tale, that the shortage was brought about by his having overpaid checks, and claims to have no vices beyond a slight liking for a game of poker with a small limit played with friends.

Evidence of Murder.

WASHINGTON, Ind., Oct. 24.—Sensational developments are coming to light relative to the death of Zack Blades, who was found dead on the street Thursday. An autopsy was held over the remains yesterday, and it was decided that Blades came to his death by concussion of the brain, caused by a blow upon the head with a blunt instrument. Several rough characters were seen with Blades late at night before his death, who are suspected of having committed the crime. Arrests will be made.

Death from Nicotine Poisoning.

SEYMOUR, Ind., Oct. 24.—Mrs. James Robertson, a venerable Irish-American, recently died here. She was a most inveterate smoker, and, although almost an octogenarian, her physicians say that her death was directly due to nicotine poisoning. She learned to use the "weed" in childhood. None but the rankest varieties would satisfy her appetite, and her pipe—she had constantly used the same "dudheen" for twenty years preceding her death—was always at her lips during her waking hours.

Released by Death.

COLUMBUS, O., Oct. 24.—Philip Steinmetz, the oldest prisoner in point of service in the Ohio penitentiary, died Friday morning of heart failure. He was sentenced in June, 1865, to hang for the murder of August Heck in Toledo. Governor Hayes commuted the sentence to life imprisonment on condition that he should never be released. He was seventy-two years old. Mrs. Josephine Ammon, of Cleveland, recently tried to have him pardoned.

Not Settled by Any Means.

SANTIAGO, Chili, Oct. 24.—United States Minister Patrick Egan has been informed by the Chilean government that his application for safe conduct for the refugees in the United States legation will not be granted. Minister Egan will continue his demands. A settlement between the two governments appears as far off as ever. It is stated that the Chilean government made the refusal on the ground that the refugees were criminals.

Too Many Foxes.

SEYMOUR, Ind., Oct. 24.—Since Jackson county ceased paying bounties for fox scalps, these pests have become very numerous and bold, sometimes extending their raids into the towns. Wednesday a blonde reynard, forty-two inches from tip to tip, was killed while robbing a roost within the city limits.

Cabinet Crisis Over.

BUENOS AYRES, Oct. 24.—Senor Swballos has been appointed minister of foreign affairs, and Senor Falestia minister of justice. The present minister of finance will remain in office. President Pelligrini has issued a manifesto declaring that the cabinet crisis is over.

Railroad Sold.

OMAHA, Oct. 24.—The Nebraska and Western railroad, running from Sioux City to O'Neill, Neb., was sold under foreclosure proceedings yesterday to Caerretson, of Sioux City, and Wickersham, of New York, as trustees of a new company for \$2,000,000. It will form a direct route in connection with the Sioux City Northern and the Great Northern roads.

Gibson Must Stand Trial.

CHICAGO, Oct. 24.—Judge Collins yesterday decided that George J. Gibson, ex-secretary of the whiskey trust, must stand trial on two of the many counts in indictments found against him in connection with the alleged conspiracy and attempt to destroy the Shnfeldt distillery with dynamite.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

SATURDAY, OCTOBER 24, 1891.

UNLESS Maysville can show a population of 8,000 she will be rated as a fourth-class city under the new Constitution.

THE question of annexing Chester ought to be decided before the next Legislature meets. The act leaves the matter with the voters of Maysville and the voters of Chester.

MAJOR McKINLEY isn't hankering after any more joint discussions with Governor Campbell. Campbell was anxious to meet him eight times more, but once was enough for the Major.

THE Cincinnati Enquirer did some effective work for the Democratic ticket in that State at the opening of the present campaign, but it has dropped back into its old tracks once more.

OHIO Republicans are doing some very foolish things in this campaign. They tried to break up Governor Campbell's meeting at East Liverpool one night this week. The Governor didn't give way worth a cent, but finished his talk. Such behavior on the part of his enemies will not do him any harm.

THE Democrats of Philadelphia charge that the Republicans have succeeded in registering in that city 12,000 fraudulent names on the poll books. This false registration will hardly save them from defeat, however. Quayism and thievery by Republican officials are too much for the honest people of that State.

It will no doubt be gratifying news to President Harrison that the opposition to him in his own party in Indiana has been "swept away by the force of growing public sentiment." That's what the Louisville Commercial says, but when it adds that Judge Gresham's friends have joined the Harrison throng some people will doubt the truth of the statement.

THE Louisville Times thinks Kentucky Congressmen ought to support Hon. Benton McMillin for Speaker of the next House principally because he is a native of this State. It's all very well to gratify State pride, but the Democrats of the country want a man in the Speaker's chair next time who has been tried and not found wanting. That man is Crisp, of Georgia.

UNDER the new Constitution there must be elected at the general election in November, 1892, a Commonwealth's Attorney for each district, and in each county a Clerk of the Circuit Court and Sheriff. Other county officers shall be elected in 1894. The first election for Circuit Judge under the new Constitution will take place in 1892, the Judges to hold office for five years, or until 1897, when they shall be elected for six years.

THERE are few banks in the State whose stock does not sell way above par, and yet some of the bankers who attended that meeting at Louisville this week stated they couldn't afford to pay the taxes imposed by the new Constitution. And they want the Legislature to pass new laws governing the matter. Thanks to the new Constitution, the Legislature hasn't the power to grant any special favors.

THE Republican papers in Ohio are telling their readers that it's an easy matter to vote a straight ticket under the new election law over there by simply placing a cross before the name of the ticket. They fail to tell them that it's just as easy to scratch a ticket. Afraid of the scratcher, you see. In voting, all that is necessary is to place a cross before the name of each candidate you wish to honor.

THE Cincinnati Post and the Covington Post are in the habit of "cribbing" specials from the morning papers. Here is a sample:

LOUISVILLE, KY., Oct. 21.—[Special.]—John C. Hendricks is on trial in the United States Court, charged with robbing the Maysville postoffice of \$700 worth of stamps six months ago.

It was the Paris office that Hendricks robbed, but the Louisville Post got it Maysville, and then the Cincinnati Post "fixed" up the above "special" from the Louisville Post's article.

THE New York World pointedly says: "Mr. McKinley repeats his silly statement that 'there are but two ways of paying the expenses of the Government, namely, by taxing ourselves or by taxing the foreigners who seek a market in our country.' Why, then, did he not repeal the internal revenue taxes and put the entire support of the Government on the foreigners? Why did his Congress stop after appropriating a billion dollars? Why not have made it two billions if the foreigner pays the tariff taxes? Mr. McKinley is not a skillful bamboozler, or else the people of Ohio are great fools."

"Michiganizing."

That is the term which the Republican organs spit viciously out, because the great State of Michigan has seen fit to declare that the Presidential Electors shall be chosen by Congressional districts instead of by a general State ballot.

Possibly they forget that Colorado chose her Presidential Electors through the Legislature in 1876, and that they were counted for Hayes. Possibly they forget that South Carolina did the same thing until 1868. Possibly they forget that a large number of our States have, from time to time, indulged in similar methods of selection. Possibly they forget, or have never read the Constitution of the United States.

Section 1 of Article II of the Constitution declares that "Each State shall appoint, in such manner as the Legislature thereof may direct, a number of Electors," &c. There is no limitation whatsoever upon this power of the Legislature; and this provision has stood unamended and even unchallenged, through all the stormy vicissitudes of our National life. It is a right as clear as daylight—as limpid as "the dew which hangs like chains of pearl on Hermon's hill."—Cincinnati Enquirer.

RIPLEY's citizens are entitled to much credit for the splendid enterprise they have established there this year in the shape of that shoe factory. It started out with twenty hands and now gives employment to about seventy, and is compelled to run till 9 o'clock at night to fill orders.

The sum of \$10,000 was promised a few weeks ago by three men to start a factory in Maysville, and the success of the factory at Ripley should stimulate the parties interested here to renewed efforts. A couple of men thoroughly experienced in the business can be secured to manage such an enterprise.

Notice to Tax-payers.

I will be in Maysville Friday and Saturday, Oct. 30th and 31st, to receive taxes. A penalty of six per cent will be added to all taxes not paid before Nov. 1st. Please be prompt.
 Oct 24th Wt J. C. JEFFERSON, D. S. M. C.

Singing Maysville's Praises.

THE Grand Lodge of Oddfellows had a most successful meeting at Maysville last week. Thursday a large crowd of people were in town to see the parade and listen to the open air concert given by Hauck's band. No Grand Lodge was ever better treated by the citizens of a place or by other secret societies than was the Grand Lodge of Oddfellows at Maysville last week. The Masons gave them full sway in their beautiful and commodious temple in the Cox Building, and they were as much at home there as in their own elegant lodge rooms. On Wednesday night the Knights of Pythias entertained the visitors and a number of citizens at their Castle Hall in grand style, over four hundred being present.—Augusta Vindicator.

Turf Topics.

Kentucky bred eight of the nineteen horses that won at the recent Lexington trots.

Stoner Boy that took a record of 2:20 1/4 on a muddy track at the Maysville fair has been sold to J. E. Madden for \$1,700.

Don Pizarro 2:14 1/4, sired by Gambetta Wilkes, holds the fastest three-year-old pacing record made in a race, and Alice Wilkes, by the same horse, paced the fastest mile ever paced in a race by a two-year-old.

Dr. Sparks has trotted thirty-one races and won twenty-seven of them. He lost one race as a yearling, one as a three-year-old and two as a four-year-old. He has trotted forty-three heats better than 2:30, which is more than any other horse ever had at his age. Annoream, two years old, has trotted twelve races and won eight, and got second money four times. Uncle Jack Hook took away from Lexington \$2,965 which he won in three races.

For the Farmer.

B. M. Hiett bought nineteen weanling mules from parties in Harrodsburg, at an average of \$46.

Three or four sales of new tobacco have been reported in this county, and the lowest price is 9 1/2 all 'round, the highest being 12 1/2. These are good figures.

The transfers of horse-flesh are estimated to amount to \$2,000,000 in Vermont the past year, and horse-raising now takes precedence of all other animal industries in the Green Mountain State.

Tobacco is all cut and in the barn; corn is plentiful and is being cribbed by hundreds of barrels. Wheat is bringing prices that make the average farmer grin with satisfaction. Hickory nuts and persimmons are here in bountiful numbers and can be had for the asking. Stock is in splendid condition, wheat has nearly all been sown, plenty of fire wood has been chopped and hauled and there is every evidence that better times are a-coming, is the way the Owensboro Inquirer figures it out.

An Evening With Humorists and Poets.

Professor T. M. Hawes, the talented elocutionist of Louisville, will give an entertainment at the Central Presbyterian Church next Friday night, Oct. 30th. Speaking of his appearance it that city the Memphis Appeal says: "His selections were varied in character, and well displayed the unusual versatility of his elocutionary talent. He succeeds equally in the humorous and pathetic, and glides from the sublime to the funny without an effort. His 'Drifting,' by Reade, had all the sweetness and grace of a Venetian day."

BELOW THE EARTH'S CRUST.

The Question as Affected by What Is Known of the Interior Heat.

Many scientific men are devoting their lives to finding out all that can be learned about the interior of this wonderful globe of ours. One of the interesting problems on which they are engaged is the depths and geological limits of the permanently frozen soil. The British Association has collected a large amount of data on this question. It has already told us some curious things, such as the fact that excellent wheat lands north of Manitoba overlie frozen earth that never thaws.

The workmen in the deepest mines in Europe swelter in almost intolerable heat, and yet they have never penetrated over one-seventh of the distance of the distance from the surface to the center of the earth. In the lower levels of some of the Comstock mines the men fought scalding water and could labor only three or four hours at a time, until the Sutor pierced the mines and drew off some of the terrible heat, which had been 120 degrees.

The deepest boring ever made—that at Sprenburg, near Berlin—penetrates only 4,172 feet, about 1,000 feet deeper than the famous artesian well at St. Louis. The result of this imperfect knowledge is that there are more theories and disputes among scientific men with regard to the interior of the earth than about any other problem of physical science, says Goldwaite's Geographical Magazine. Some eminent physicists, for instance, like Sir William Thompson, have believed that the crust of the earth is at least one hundred miles thick. The majority adduce good reasons for believing that the crust is only twenty-five to fifty miles thick. All agree that the temperature within the earth continues to increase as it does near the surface—at the rate of one degree, Fahrenheit, for about every fifty-five feet of descent. All igneous rocks must be fused at no great depth.

In fact at this rate of increase the temperature at 200 miles is 28,000 degrees Fahrenheit, which is Professor Rosetti's estimate of the probable temperature of the sun. It is improbable, however, that this rate of increase is maintained for a great distance, and many physicists believe that at some unknown but very great depth the increase in temperature ceases.

 When she was a Child, she cried for Castoria.
 When she became a Miss, she clung to Castoria.
 When she had Children, she gave them Castoria.

Here we have a simple way of keeping grapes fresh for months at a time. Cut the laterals as long as possible, and insert in bottles of water into each of which has been placed about two table-spoonfuls of finely powdered charcoal. Hang the bottles in a cool, dry room.

MR. FOSTER says the first storm wave
of November will be due to leave the
Pacific coast about October 30th, across
the interior valleys from October 31st to
November 2nd and reach the Atlantic
coast about the 3d. A cold wave, severe
for the time of year, may be expected to
appear in the northwest following this
storm center and cause frosts in all the
northern and most of the southern States,
closing the cotton growing season by
November 5th. Our winter weather will
approach from the northwest, and winter
will set in earlier there and be more
severe than in the north-eastern States,
and this storm wave will be followed by
wintry weather in the upper Missouri
and upper Mississippi valleys.

Exciting Times in a C. and O. Car.

There was an exciting scene on the C.
and O.'s Huntington accommodation just
after it left South Ripley last evening.
Among the passengers was James S.
Kendall, of Adams County, Ohio. He
got into a dispute with the Collector over
the fare of a friend whom he picked up
in Cincinnati and whose way he was pay-
ing to Manchester. Some hot words
passed between the Collector and Ken-
dall, and the latter suddenly reached for
his pistol. There was a stampede for the
doors by most of the other passengers,
and it looked like there would be some
shooting.

Fortunately, Deputy Sheriff Perrine
was in the seat behind Kendall, and he
seized the fellow's hand before he could
get the weapon out. Squire Williams,
of Mayslick, and Mr. W. H. Brady, of
Washington, were in the car and with
their assistance Kendall was disarmed
and placed under arrest.

He was taken before Judge Phister on
the arrival of the train at this place, and
in default of bail was committed to jail
until this morning, when he was taken
before Squire Grant for trial on the
charge of carrying concealed a deadly
weapon. He wanted a continuance until
Monday week, but was not able to give
bail. The Squire adjudged him guilty,
and fined him \$25 and costs and sent him
to jail ten days.

ASSAULT UPON SAILORS.

Particulars of the Recent Affray in the Streets of Valparaiso.

WASHINGTON, Oct. 24. — Secretary Tracy, after submitting the cablegram received from Captain Schley, of the United States steamship Baltimore, about the affray in Valparaiso, between the American and Chilean sailors last week, to the president, made public the substance of the dispatch.

A dispatch received from Captain Schley last evening stated that he had made a careful investigation of the assault on our sailors on the 10th instant. The investigation shows that petty Officer Charles Riggins, while riding in a street car, was assaulted and dragged from the car, and shot and murdered by a mob of about one hundred armed men. Apprentice Talbot was assailed and out dangerously several times in his back, two cuts penetrating his lungs. Coal Heaver Itherson was robbed and cut dangerously in the back several times. Coal Heaver Turnbull received eighteen wounds in the back; two penetrating his lungs. He is in a critical condition. Petty Officer Hamilton was wounded several times in the back and other parts of the body. Coal Heaver Painter and Landsman Davidson were dangerously injured by an assault with clubs, stones and knives, and a number of other men were dangerously injured.

Thirty-five seamen were arrested by the authorities, but what disposition was made of them cannot be learned from inability to translate the cipher dispatch.

The surgeons of the Baltimore are of opinion that some of the wounds were inflicted by bayonets, showing clearly the participation of the Chilean police.

The American sailors were without arms and defenses. The investigation shows that they were sober and were in no respect guilty of misbehavior. Two of the seriously wounded are still in the hospital. In several instances the sailors of the Chilean fleet rendered assistance to the American sailors and several of them were arrested.

Secretary Tracy would not say whether any action in the matter had been decided upon.

THEY WILL BE ARRESTED.

Louisiana Lottery Officers Indicted by a South Dakota Grand Jury.

SIOUX FALLS, S. D., Oct. 24.—The grand jury reported yesterday eleven separate indictments each against the officers of the Louisiana lottery. Among the list are General Beauregard, Paul Conrad, president, and Joseph P. Horner, secretary. The indictments are for transmitting lottery advertisements through the mails which is a violation of the lottery law passed last winter by congress.

The evidence was all laid before the grand jury in the form of affidavits, and kept with the utmost secrecy. The department at Washington brought the charges before this court for the reason that their efforts in other states before United States grand juries has been frustrated. The United States marshal and his deputies left at once for New Orleans to arrest the president, vice president, secretary-treasurer and directors of the lottery. The extreme penalty in case of conviction is five years imprisonment and \$5,000 fine.

MURDER WILL OUT.

After Three Years a Mysterious Disappearance is Explained.

SHELBYVILLE, Ind., Oct. 24.—A human skeleton with a bullet hole through its head was found in the farmhouse of John Clendenning, in Decatur county.

The house was purchased three years ago by Dr. J. W. Reiley, of Sardinia. Wednesday carpenters were repairing the kitchen, and in removing the roof they found the skeleton, wrapped in a sheet, hanging from the rafters.

The skeleton is supposed to be that of a wealthy stock buyer by the name of McKinney, who disappeared about three years ago with a large sum of money in his possession.

Shortly after McKinney's disappearance Clendenning also disappeared, and has not been heard from since.

Freight Collision.

MARSHALLTOWN, Ia., Oct. 24.—A special from Lake City says: A terrible collision occurred late last night between two heavy freight trains on a branch of the Chicago and Northwestern railroad. Both trains were fearfully wrecked. M. R. Hayden and George Stein, both brakemen living at Lake City, were instantly killed. Engineers Collins and McAllister were probably fatally injured and other trainmen considerably hurt. The accident occurred on a curve, neither engineer seeing the other train in time to avoid the disaster.

Grand Jury's Failure.

MONTGOMERY, Ala., Oct. 24. — The city is considerably stirred up owing to the fact that the grand jury has failed to find an indictment against Colonel B. Dunham, who, on Sept. 27, shot and killed young James Cunningham, who, it was alleged, made improper remarks about Mrs. Dunham. Colonel Dunham, who had been lodged in jail pending the investigation, was released, and has resumed his duties as president of the Alabama Midland railroad. The action of the grand jury is severely criticised by the friends of the dead young man.

Arrival of Immigrants.

WASHINGTON, Oct. 24.—During September past, 52,706 immigrants arrived in this country, against 45,478 in September, 1890. Of the arrivals last month, Germany furnished 10,705, Russia, 9,777, England and Wales, 6,270, Ireland, 5,293, Sweden and Norway, 5,031, Austria-Hungary, 4,763, Poland, 3,190, Italy, 2,561 and Scotland, 1,210.

Child Burned to Death.

INDIANAPOLIS, Oct. 24. — Clarence Cavanaugh, the five-year-old son of W. H. Cavanaugh, was burned to death yesterday afternoon. He was burning dead leaves in the street when his clothing caught fire, and his body was burned to a crisp.

Perished in a Burning Dwelling.

COLUMBUS, Ind., Oct. 24.—John Taylor, a farmer residing east of here, has lost his fine residence by fire. His two-year-old daughter was so badly burned that she died.

THE MARKETS.

Cincinnati Tobacco Market.

(Thursday.)

The breaks remained large and there was no change from the preceding day, the same easy, irregular market being shown, and sales were not satisfactory. An exceedingly small number of hhds good and fine leaf were on sale, and this kind held firm at former prices. A dull market is shown for common and medium leaf and red tobaccos, and prices rule low. Low grades were in fair request at prices noted heretofore. Of the 757 hhds. 173 sold from \$1 to \$3.35, 244 from \$4 to \$5.35, 185 from \$6 to \$7.05, 67 from \$8 to \$9.30, 80 from \$10 to \$14.75, 37 from \$15 to \$19.25, 4 from \$20 to \$22 and 1 at \$25.75.
